PABLO CARVALHO

Full Stack Developer / Creative Technology

Montevideo, Uruguay • +598 94 375 127 • pablocarvalhogimenez@gmail.com
pablocarvalho.dev • github.com/PolCarva • linkedin.com/in/pablo-carvalho-gimenez

Full stack developer and Multimedia Design graduate combining software, interaction design and applied AI. I build mobile applications and business tools for international clients at GoPersonal and teach programming and interactive design at ORT. Independent projects explore games, real-time interaction and AI-assisted development.

EXPERIENCE

Full Stack Developer | GoPersonal • Apr 2025 - Present

Develop and implement software for international clients: mobile applications, business management tools and AI service integrations. Work across technology stacks to help digitize processes and improve operations.

Lecturer & Teaching Assistant | Universidad ORT Uruguay • Apr 2025 - Present

Interactive Design lecturer (Mar 2026 - Present); Programming 2 lecturer (Aug 2025 - Present); Programming 1 teaching assistant (Apr - Jul 2025). Teach advanced JavaScript, APIs and introductory backend development. Guide interactive projects connecting design, technology and AI.

Full Stack Developer | NS Group • Mar 2024 - Aug 2025

Full stack web development, combining frontend interfaces with backend application logic.

Web Developer | Dango • Jul 2024 - Apr 2025

Web and e-commerce development with WordPress, Shopify, PHP and Tailwind CSS, with attention to visual detail and functionality.

SELECTED PROJECTS

El Impostor - Browser-based social deduction game. Connects game logic, interaction design and AI exploration with Next.js, TypeScript and Tailwind CSS.

Phone-to-TV keyboard - An app built with Claude Code to type on Android TV from a phone, solving an everyday usability problem.

Interactive YouTube game - Turned a YouTube video into a playable experience and documented the experiment publicly.

Wordle Infinito - Full stack web game with Next.js, TypeScript, Node.js, MongoDB and WebSocket. Also explored opening-word strategies through programming and data analysis.

EDUCATION & CREDENTIALS

Multimedia Design degree | Universidad ORT Uruguay | 2020 - 2025

Web Designer, intermediate qualification - ORT (issued 2023). React JS - Coderhouse (2023).

CAPABILITIES & TOOLS

Capabilities: full stack development, digital products, AI integration, interaction design, mobile applications, technical teaching.
Tools: React, Next.js, TypeScript, Node.js, Express, MongoDB, SQL, Tailwind CSS, Figma, Git.

LANGUAGES

Spanish: native. English: B2.
